Welcome to the Jabb Events, a mobile application of Jabb Labs, LLC (“**Jabb Labs**” or “**us**”). We have created this Privacy Policy to ensure the confidence of users (“**you**” or “**your**” or “**Users**”) of our app (“**App**”), and to demonstrate our commitment to fair information practices and the protection of your privacy. By downloading, installing and using the App, you are choosing to share certain personal information with us. We would like you to know exactly how that information is used by us to provide a better user experience, and the steps we take to protect your information. This privacy policy has been created to answer any questions you may have regarding JABB Labs’s data collection and protection policies.

1. Types of Information Collected.

- a. **Personal Information Collected.** In using our App, you will be asked to share your name, address, e-mail address, phone number, and zip code (“**Personal Information**”) with us. Jabb Labs may also request your e-mail address or mailing address for the purposes of having someone contact you for additional information, or in response to your request for information from us. If you create an account for purposes of searching for events or posting events, you will be required to provide Personal Information.
- b. **Information from Children.** We do not knowingly solicit or collect information from anyone under 13 years of age (“**Children**”). Our Terms and Conditions require Users to certify that they are 17 years of age or older. In the event that your minor child subscribes to receive information from us without your knowledge, and you discover this, please contact us. We may ask you to provide certain verification materials.
- c. **Cookies and Tracers.** Jabb Labs may collect information about you and your use of our App whenever you use the App. For instance, we may collect various forms of information related to traffic statistics, operating system and browser type (collectively “**Traffic Data**”). Traffic Data is anonymous information that does not personally identify you but is helpful for marketing purposes or for improving your experience using our App. In addition, if you access the Jabb Labs website (“**Site**”), our servers automatically log your IP address. An IP address is a number that is automatically assigned to your computer whenever you are surfing the Web. Jabb Labs may store some information on your computer in the form of a “cookie” or similar file to help us maintain and improve this Site in many ways.

A “cookie” is a small amount of data that is transferred to your browser by a web server and can only be read by the server that gave it to you. It functions as your identification card, recording such things as Internet addresses, passwords, and preferences. It cannot be executed as code or deliver viruses. With most Internet browsers, you can erase cookies from your computer hard drive, block all cookies, or receive a warning before a cookie is stored. The “Help” portion of the toolbar on most browsers will tell you how to

prevent your browser from accepting new cookies, how to have the browser notify you when you receive a new cookie, or how to disable cookies altogether. Please refer to your browser instructions to learn more about these functions. Enabling cookies allows you to take full advantage of all the features on the Site and we recommend that you leave them turned on. If you elect to block the cookies, we will not be able to provide you with a personalized experience on our Site.

In some instances, Jabb Labs may use tracking scripts or “tracers” that recognize a unique identifier from a cookie placed on your hard drive by another website. These are used by Jabb Labs solely to gauge the success of our own advertising. For instance, Jabb Labs may use a tracer to determine whether you visit certain web pages where Jabb Labs may have placed a banner ad. Jabb Labs does not use tracers to gather information on your use of the Internet unrelated to Jabb Labs. Please note that Jabb Labs does not use tracers to identify your personal information, and you remain anonymous unless and until you either (a) log into your account; (b) communicate with Jabb Labs via e-mail or (c) complete on-line forms.

By accessing or using the Site or the App, you consent to JABB Labs’s use of cookies on your computer hard drive or mobile device.

2. **Use of Information Collected.** We use the Personal Information directly submitted by you for the purpose for which you have provided it. We may also use the information you provide to us to contact you for reasons related to any communication you may have with us. We may use your Personal Information to customize your experience on the App or Site and display content that we think you might be interested in according to your preferences. Your e-mail address is not used for any other purpose except to the extent necessary to follow-up on specific questions requiring information from Jabb Labs. Visitors who give us their telephone numbers online will only receive telephone contact from us for reasons related to the visitor’s original communication or request. We may use non-identifying and aggregate information to better design our App or Site.
